Fight Fraud with the Smart Document Series™

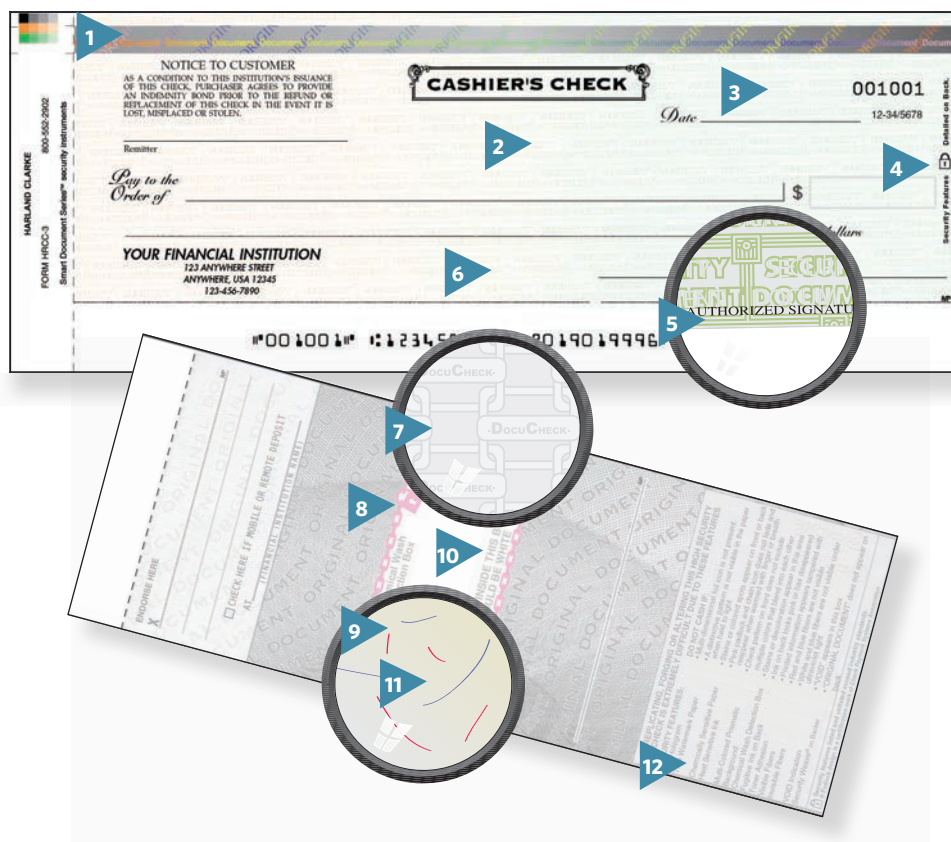

Harland Clarke, one of the nation's leading financial service providers, helps reduce the risk of counterfeit documents with our Smart Document Series™, an economical security strategy designed to combat fraud where it starts.

Security features are your first line of defense.

Our Smart Document Series™ official documents contain multiple security features to help your employees detect counterfeiting. Plus, our formats, styles and colors offer your institution maximum flexibility.

Choose our Hologram Smart Documents which have at least 10 tamper-evident features, including an authentic hologram stripe that's virtually impossible to reproduce or copy.

Hologram Smart Document

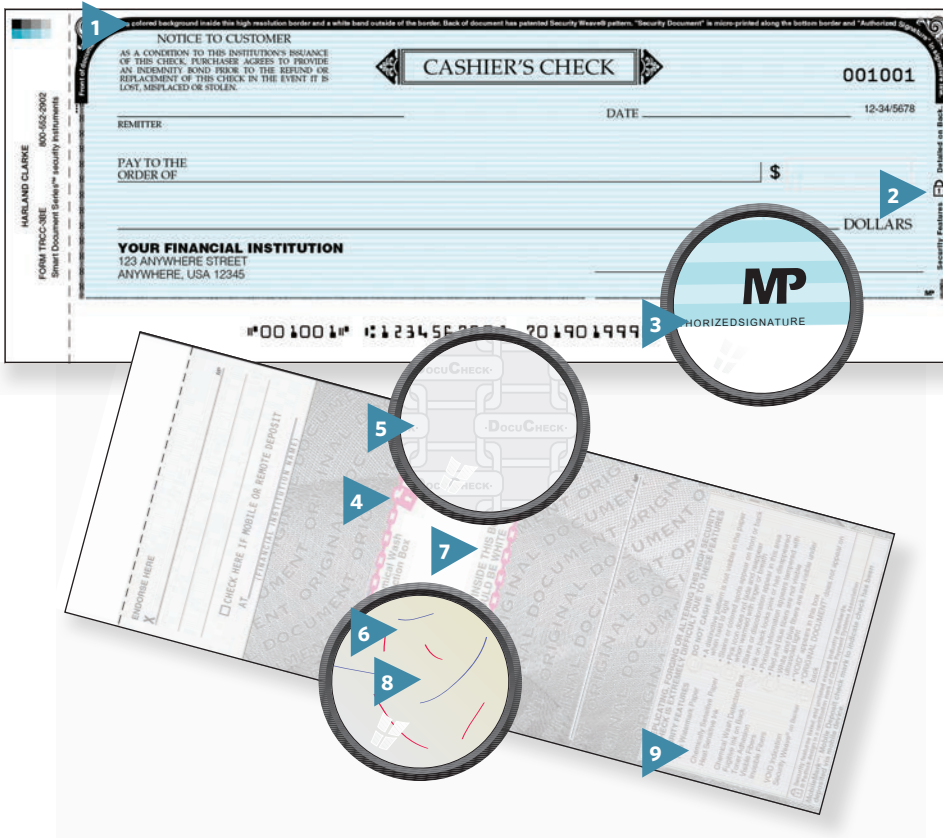

- 1 Authentic Hologram**
Harland Clarke's custom HoloStripe™ security feature provides a reflective, three-dimensional appearance that is easy to verify with the human eye, yet impossible to reproduce by ordinary copying or printing.
- 2 Prismatic Background Colors**
Attractive prismatic background pattern deters computer fraud and colors distort when copied.
- 3 Interlocking Background Pattern**
Our interlocking step-and-repeat background pattern distorts when copied.
- 4 Padlock Icon**
Padlock Icon indicates document meets ANSI security guidelines. It also directs readers to the back of the check for a list of security features.
- 5 Micro-Print Signature Line**
The micro-print signature line reads "AUTHORIZED SIGNATURE," but when reproduced, type appears as a broken line.
- 6 Security Inks**
Tamper-resistant security inks and pastel colors guard against the use of solvents and color copying. Harland Clarke documents are made using special solvent-reactive inks that dissolve on contact with organic solvents.
- 7 Fourdrinier Watermark Stock**
A true watermark shows a negative image in reflected light and a positive image in transmitted light; virtually impossible to fraudulently reproduce.
- 8 Heat Sensitive Ink**
The back of each document contains a visible padlock with heat sensitive ink that will change color when rubbed.
- 9 Visible and Invisible Fibers**
Visible fibers are randomly embedded into the paper making duplication difficult. Invisible fibers can be seen under a blacklight.
- 10 Chemical-Reactant Stains**
Stains react with common chemicals to readily show tampering.
- 11 UV Dull**
Low reflectance in UV light minimizes interference with fluorescent printed features and optical reading.
- 12 Security Checklist**
Itemized review of features alerts your employees to security characteristics of the document.

To learn more,
contact Harland Clarke
at **1.800.552.2902.**

Traditional Smart Document Series™

Our Traditional Official Documents offer multiple security features for your protection.

Traditional Smart Document

- 1 High Resolution Border**
Detailed border distorts when copied, making it apparent to your employees that tampering has occurred. Also acts as an itemized checklist of security features.
- 2 Padlock Icon**
Padlock Icon indicates document meets ANSI security guidelines. It also directs readers to the back of the check for a list of security features.
- 3 Micro-Print Signature Line**
The micro-print signature line reads "AUTHORIZED SIGNATURE," but when reproduced, type appears as a broken line.
- 4 Security Seal**
The back of each document contains a visible Security Heat Seal that will change color when rubbed.
- 5 Fourdrinier Watermark Stock**
A true watermark shows a negative image in reflected light and a positive image in transmitted light; virtually impossible to fraudulently reproduce.
- 6 Visible and Invisible Fibers**
Visible fibers are randomly embedded into the paper making duplication difficult. Invisible fibers can be seen under a blacklight.
- 7 Chemical-Reactant Stains**
Stains react with common chemicals to readily show tampering.
- 8 UV Dull**
Low reflectance in UV light minimizes interference with fluorescent printed features and optical reading.
- 9 Security Checklist**
Itemized review of features alerts your employees to security characteristics of the document.

Harland Clarke offers a variety of document styles including...

Cashier's Checks	Personal Money Orders	Dividend Checks
Bank Money Orders	Official Checks	Interest Checks
Expense Checks	Loan Checks	Loan Proceeds

Additional selections available. Call 800-552-2902 for more information.

Available in three colors.

Laser Checks

Standard Laser Checks are available in check top, middle or bottom.
No imprints, no numbering. Available with 3 ½" or 3 ⅔" perforations.

All check styles may not be available and are subject to change without notice.

3 ½" Check Style Perforations

Check Top: 3 ½" and 7"
Check Middle: 3 ½" and 7"
Check Bottom: 4" and 7 ½"

3 ⅔" Check Style Perforations

Check Top: 3 ⅔" and 7 ⅓"
Check Middle: 3 ⅔" and 7 ⅓"
Check Bottom: 3 ⅔" and 7 ⅓"

1 Fourdrinier Watermark Stock

A true watermark shows a negative image in reflected light and a positive image in transmitted light; virtually impossible to fraudulently reproduce.

2 Visible and Invisible Fibers

Visible fibers are randomly embedded into the paper making duplication difficult. Invisible fibers can be seen under a blacklight.

3 Fugitive Inks

Chemical alterations may cause extreme discoloration; washing the check will likely cause details of the backer to fade or disappear.

4 Heat Reactive Seal

The stop sign on the front of each document contains a visible Security Heat Seal that will change color when rubbed.

5 UV Dull

Low reflectance in UV light minimizes interference with fluorescent printed features and optical reading.

6 Padlock Icon

Padlock Icon indicates document meets ANSI security guidelines. It also directs readers to the back of the check for a list of security features.

7 Security Checklist

Itemized review of features alerts your employees to security characteristics of the document.

8 Security Weave®

A patented intricate design that is extremely difficult to duplicate.

9 VOID Feature

The word VOID will appear in the Warning Box if the check is scanned or photocopied.

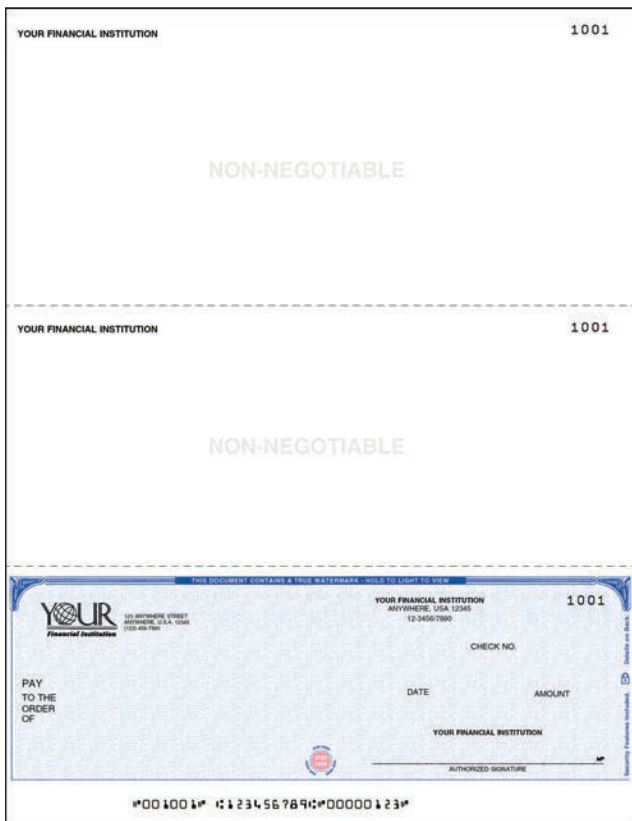

Laser Checks Overprint

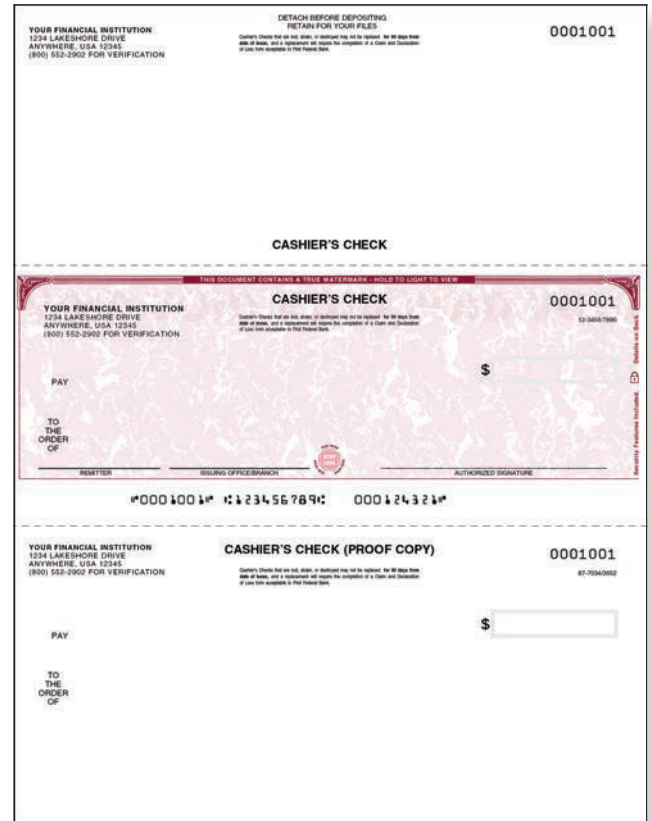

Custom Overprint in black magnetic ink to match your layout.
Standard Laser Checks are available in Check Top, Middle or Bottom.

Tan Linen

Reflex Blue Linen

Burgundy Marble

All check styles may not be available and are subject to change without notice.

Standard Laser Checks

Overprint in Black Mag

Single or double MICR line available

3 1/2" Check Style Perforations

Check Top: 3 1/2" and 7"

Check Middle: 3 1/2" and 7"

Check Bottom: 4" and 7 1/2"

3 3/8" Check Style Perforations

Check Top: 3 3/8" and 7 1/8"

Check Middle: 3 3/8" and 7 1/8"

Check Bottom: 3 3/8" and 7 1/8"

Optional bank and customer logo placements available.

Preferred formats for receiving artwork:

1. .ai, .eps, or .pdf vector illustration
2. Uncompressed .tiff with a resolution greater than 300 dpi
3. .bmp with bitmap color profile greater than 300 dpi

A letterhead or envelope with a large clean logo will also work.

.jpg logos pulled from a website will generally not work. Logos must have a resolution greater than 300 dpi in order to work.

If no high quality logo artwork is available, our composition team can recreate your logo for an additional fee.

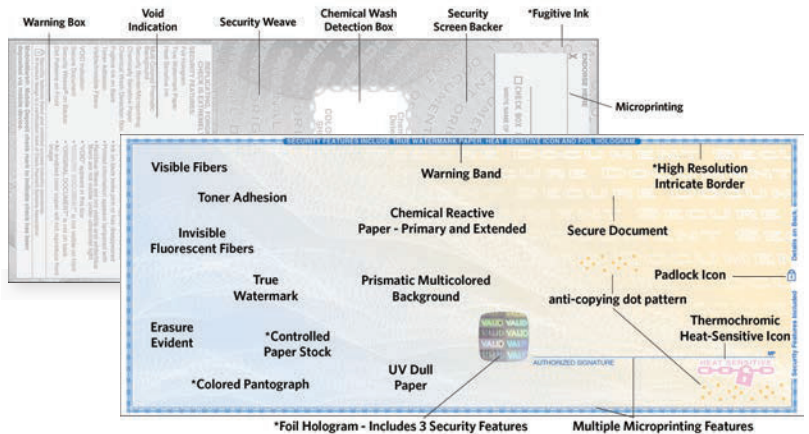

Laser Checks Overprint

High Security Hologram

Colors: Blue, Green, Maroon, Tan, Purple - Size: 8 1/2" X 11" - Available in Top & Middle - 3 1/2", 7" perforations.
Blue only - Check Bottom - 4", 7 1/2" perforations.
Blue, Green, Maroon, Tan, Purple - Draft - 3-to-a-page - 3 1/2", 7, 10 1/2" perforations.

Custom Overprint in black magnetic ink to match your layout.

Blank stock only available with control number printed on back.

The High Security Laser Check has 30 security features including the following to help your business from check fraud.

- *Colored Pantograph:** If the unique colored background is not present, the document is not authentic.
- *Controlled Paper Stock:** Controlled stock ensures the security of your product, as well as the paper supply itself, during every state of production.
- *Foil Hologram:** A three dimensional graphic foil embedded in the check provides additional protection against duplication of the document.
- *Fugitive Ink:** This chemical-sensitive ink used to print the check backer forms a detectable spot when chemical alteration is attempted.
- *High-Resolution intricate Border:** Uniquely designed border is difficult to replicate and often distorts when copied.

Premier Designs* - Size: 8 1/2" X 11"

Colors: Navy Marble, Hunter Green Marble, Burgundy Marble, Caramel Marble, Blue Sheffield™, Colonial Classic©
